

Equipment and Supplies Wishlist to Support Shellfish Testing

Malahat Nation is building a community lab to support monitoring and testing of culturally important shellfish harvesting areas, and to foster/promote interest in STEM with youth in the community

Above photos: New community laboratory space for Malahat Nation. Please consider donating the following equipment.

Equipment needed for the lab	Consumables needed for the tests
<ul style="list-style-type: none"> <input type="checkbox"/> Bench-top refrigerated centrifuge with rotors for 50mL and 15mL tubes <input type="checkbox"/> ELISA plate reader <input type="checkbox"/> ELISA plate washer <input type="checkbox"/> pH meter <input type="checkbox"/> Distilled water system <input type="checkbox"/> Vacuum pump Incubator <input type="checkbox"/> -80°C Freezer <input type="checkbox"/> Refrigerator/Freezer <input type="checkbox"/> Multi-channel pipettors (2-20µL; 20-200µL) <input type="checkbox"/> P2, P20, P200, P1000 pipettors <input type="checkbox"/> Eye-wash station, lab coats 	<p>Do you have any stock you're getting rid of for these items? E.g. consumables such as:</p> <ul style="list-style-type: none"> <input type="checkbox"/> 1.5mL plastic, snap-cap centrifuge tubes <input type="checkbox"/> 15mL and 50mL plastic centrifuge tubes <input type="checkbox"/> 20µL, 200µL, 1000µL disposable pipet tips <input type="checkbox"/> General glassware (flasks, beakers, Erlenmeyer's, etc.)

Contact the **BC Centre for Disease Control's Environmental Health Services - Food Protection Team** at fpinfo@bccdc.ca if your team may have equipment to donate.

Thank you for your consideration.
Your contribution will help a community to address food security.
